SUMMARY

I am a software engineer with a passion for delivering exceptional user experiences. Experienced in developing responsive websites and apps, optimizing performance, and integrating analytics tools. Strong problem-solving abilities, attention to detail, a growth mindset, and a commitment to delivering clean, efficient code.

EXPERIENCE

UI ENGINEER

SCORPION | REMOTE | 2021 - PRESENT

- Developed comprehensive user engagement platforms and innovative tools and animations from scratch.
- Took ownership of front-end development in the advertising branch of a proprietary framework.
- Mastered multiple frameworks, transitioning seamlessly between them to maximize efficiency.
- Collaborated with cross-functional teams to build and maintain front-end platforms using Angular, HTML, SCSS, JavaScript, C#, and SQL.
- Improved client data management and marketing content capabilities, driving business growth.
- Developed and optimized HTML emails for multiple clients, enhancing marketing efforts.

SOFTWARE ENGINEER

GAMEDEVHQ | REMOTE | 2020

- Developed multiple 2D and 3D games using Unity and C#
- Created a mobile game for iOS and Android platforms, ensuring successful publication on Apple Store and Google Play Store.

FRONT END WEB DEVELOPER

JOB PIXEL | REMOTE | 2020

- Designed and developed login splash page with HTTP Authentication, enhancing user experience and security.
- Built a React app utilizing HTML, CSS, SCSS, JSX, and JavaScript to create dynamic and interactive user interfaces.
- Utilized Figma to create user flows and collaborated with global team members to deliver a minimum viable product (MVP).
- Integrated Google Analytics and Google Tag Manager to track user behavior and gather valuable insights.
- Engaged in cross-functional collaboration to align project goals and timelines.

WEB DEVELOPER AND BUSINESS CONSULTANT

BAREFOOT LIFE | LIHUE, HAWAII | 2017- 2020

- Created and designed multiple responsive websites for small businesses, ensuring effective online presence and user experience.
- Provided consulting services to new business startups, offering guidance on web development, design, and digital strategies.
